

NEW NEWS:

VLK Changing For Our Customers / Friends!

Vohne Liche Kennels is proud to announce in our ongoing efforts to assist all of our clients with all of their K9 needs, **effective immediately**, our normal single purpose detection / tracking courses that ran three weeks in length will now run Four Weeks in length at no additional class cost to our customers. This will allow for more time for advance detection and of course more time and distance to solidify the tracking portion of this course. We at Vohne Liche Kennels feel that it is necessary for the extra week so our handlers are more confident in their K9 duties.
